

SUMMARY of CAPACITY ASSESSMENT ISSUES to STUDY or IMPROVE ON:

Part A. TECHNICAL CAPACITY ASSESSMENT

1. Water Supply and Existing Demands Data:
2. Water User Demand Data:
3. Purchased Water:
4. Competing Uses of Water:
5. Alternative Water Sources
6. Well and Spring Water Sources
7. Surface Treatment Path
8. Surface Water Systems
9. Ground Water System Protection
10. Disinfection Treatment Path
11. Disinfection
12. Pumping and Boosting Infrastructure
13. Storage Infrastructure
14. Distribution System Infrastructure
15. Water Quality and Cross Connection Programs

Part B. MANAGERIAL CAPACITY ASSESSMENT

1. Operations
2. Administration
3. Rules, Policies, and Standards
4. Regulatory Compliance Programs
5. Emergencies and System Security
6. Safety

Part C. FINANCIAL CAPACITY ASSESSMENT

1. Financial Planning
2. Revenue Development
3. Financial Management and Controls
